So that we may improve our products & services, please rate the services provided to you by Comprehensive Home Service using the format below:

Category: Please provide a brief written response in each category

Overall Experience: David was superb with his patience, design capabilities and craftsmanship. He and his team turned our very dated home into a showpiece that has brought us pleasure and complements. David's "can do" attitude and abilities made possible a transformation we thought we could only dream of.

Cost to Value:

Quality of Work: The quality of work and craftsmanship was outstanding.

Responsiveness: David and crew were very responsive to our inquiries, requests and concerns during this major project. They all worked hard to satisfy our needs.

Punctuality: Work was done on a very punctual schedule both for crews starting on time (or early) and the project moved along on schedule factoring in the our numerous additions to the original plan.

Professionalism: David always interacted on a very professional level.

Workmen & Subcontractors: For the most part, we were very pleased with the workmen and subcontractors.

Design Work (if applicable): The design quality was outstanding. We had unsuccessfully worked with several designers without satisfaction before working with David. His design skill transformed the entire project to a level that we still comment to each other how pleased we are with our kitchen, bath and living room.

Would you use Comprehensive Home Services again ? We would and have had David return for other projects.

Would you recommend Comprehensive Home Services to others ? We have and would.

Please describe the work you had Comprehensive Home Service perform:

The work included the following: Complete gutting of the original kitchen and bath, removal of load bearing walls to combine/annex additional room to the kitchen, push out the outside kitchen walls to accommodate a new kitchen window design, remove the back wall of the living room to replace with a bank of windows.
